

ATHARAV GANESH SAMANT

Richardson, TX 75080 | (214) 223-7218 | atharav.samant@utdallas.edu | [linkedin.com/in/atharav-samant](https://www.linkedin.com/in/atharav-samant)

EDUCATION

The University of Texas at Dallas, Naveen Jindal School of Management June 2028

Dual Degree: Master of Business Administration (MBA) and M.S. in Business Analytics and AI

The University of California, Davis

September 2023

Bachelor of Science in Computer Science & Engineering

PROFESSIONAL EXPERIENCE

Abhitech Energycon Limited, Mumbai, India

November 2023 – June 2026

Project Manager (March 2024 – June 2026)

- Diagnosed inefficiencies in a 5-hour manual product analysis workflow and led development of AbhiStat, an automated analytics platform that reduced analysis time to 5 minutes and generated client-ready statistics, visualizations, and insights to support faster product performance decisions.
- Built the business case, defined requirements, and coordinated rollout of an in-house task management and resource allocation platform adopted by approximately 400 employees, reducing estimated software costs by 96% and avoiding approximately \$28K in annual software spending.
- Led research and development of SmartCoke, an industrial AI optimization initiative, synthesizing plant process analysis, operating data, and input from IIT Kanpur advisors and industry experts to improve fuel blending decisions and output quality.
- Coordinated a cross-functional project team of 13-14 contributors and advisors across software, operations, academia, industry, and external partners to analyze operating challenges and develop technology solutions for steel plants and power utilities ranging from 210 MW to 800 MW.
- Redesigned field reporting and management review workflows, reducing field reporting time from 45 minutes to 4 minutes and senior management review cycles from 2-3 days to 2-3 hours.

Software Engineer (November 2023 – March 2024)

- Conducted plant visits, customer requirements analysis, process analysis, and expert discussions with IIT Kanpur advisors to understand operating needs and support early stage development of SmartCoke.
- Developed statistical and machine learning analyses that controlled for external operating variables to isolate product impact, translating complex results into client-ready evidence of product performance.

LEADERSHIP & PRESENTATIONS

World Congress on Engineering Asset Management (WCEAM 2024), Presenter October 2024

- Presented SmartCoke, an AI driven fuel blending optimization solution, to an international audience of ~60 industry and academic participants, communicating its quality and sustainability applications.

SKILLS

Analytics: Python, Data Analysis, Statistical Analysis, Machine Learning, Data Visualization

Product and Technology: Product Development, Requirements Analysis, Business Case Development, ERP Systems, Project Management
